### **“12 Pelvic Sites Contest” - REGULATION -**

#### THE IDEA

To realize a collection of representative video-clips on the ultrasound assessment of the female pelvis.

Twelve pelvic sites have been selected to obtain a comprehensive anatomy description. Ultrasound examiners, members of Scientific National Societies, will contribute to the construction of this unique world database.

The project was launched during the online pelvic ultrasound course organized on May 14<sup>th</sup> 2022 at the Università Cattolica del Sacro Cuore of Rome and will be presented during the second online event which will take place on November 14<sup>th</sup> 2022.

#### WHAT DO YOU NEED TO KNOW TO TAKE PART IN THIS PROJECT?

1. Are you a member of a Scientific Society of gynaecologists?
2. Check if your Society is already involved in the project “12 Pelvic Sites Contest”
3. If not, you could present it to the Board (you can see the “Letter to Scientific Societies”) inviting the Society to take part into the project.
4. Before the “second event” planned for November 14<sup>th</sup> the Society could select the best 24 ultrasound videos from the members of their society to upload into the platform.
5. During the second event a world database with the videos uploaded by the Scientific Societies from all around the world will be available for all the registered participants.

Three videos with the best quality will be selected for an oral presentation during the event on November 14<sup>th</sup>.

## TECHNICAL REQUIREMENTS

All videos must have a maximum duration of 3 minutes and must be saved in MOV and MP4 format. The videos must be uploaded to the platform no later than October 31<sup>th</sup>.

During the online event the selected videos will be presented by the original examiner (3' for ultrasound videoclip and 2' discussion).

## EVALUATION CRITERIA

The video-clips will be reviewed by a Jury composed of members of the Faculty. The judging panel will assess the entries according to the following criteria:

- 1) technical appeal of the video (i.e. quality of production)
- 2) ability to communicate scientific concepts
- 3) level of engagement and innovation

## CONFIDENTIALITY AND PROTECTION OF PERSONAL DATA

For the processing of this competition, the Università Cattolica del Sacro Cuore of Rome observes the rules set in Regulation (you can fill in the Privacy Form “12 Pelvic Site Contest”).

All personal data provided in every video is collected by the Università Cattolica del Sacro Cuore of Rome solely for the purposes of administering the “12 Pelvic Sites Contest”.

## PAYMENT TERMS AND METHODS

- Registration fee to attend the entire event (May 14<sup>th</sup> and November 14<sup>th</sup>): 90 Euros

Link for registration:

(<https://roma.unicatt.it/evt-ultrasound-of-pelvic-anatomy-marathon-for-solidarity>)

- Credentials to upload the videoclips are reserved to the registered National Scientific Societies.

## BEHIND THE IDEA:

The “12 Pelvic sites” contest is part of the Scientific Project: “Ultrasound Pelvic assessment”; two online events, gathering gynaecologists from all around the world. Experts on ultrasound decided to share their experience for a humanitarian project: through a virtual Marathon for solidarity they want to support Shanti Ashram, an Indian organization engaged in health, educational and socio-economic activities in the Coimbatore district. Shanti Ashram’s initiatives reach 50,000 children, who are provided with healthcare and educational programs designed to help them get out of poverty.

## INVITATION

Contribute to donate health and join our community of international ultrasound gynecologists for the study of the female pelvis.

Make a video inspired by one of the “12 Pelvic Sites” showing a normal or a pathological case.

We wish that at least one of your video(s) will be part of the “world exposition of ultrasound videos on pelvic anatomy”.
